

To Whom it May Concern,

I am writing to express my interest in the Software Development internship position at Amazon. I am particularly drawn to this opportunity because of my passion for simulation and the opportunity to work with a company that is at the forefront of cutting-edge technology.

I am a second year Computer Science student at the University of Central Florida. I have gained experience working with C and Java from school, and currently enrolled in Computer Science 2 using Java. In my free time I have additionally won a hackathon project with my team using JavaScript.

I have experience using simulations through my studies and hobbies and am interested in learning more about development and implementation of high-level programming solutions. I am excited to apply my skills and knowledge in a professional setting and to continue learning and growing in this field.

Thank you for considering my application. I look forward to the opportunity to speak with you further.

Sincerely,
Seth Lenhof
